FARM TO FASHION

## ABOUT US

We are a group having a background of textiles since more than 40 years and are geographically located within the cotton growing district of Botad in Gujarat state Of India. Botad which is particularly know to have the best cotton, amongst Gujarat Cotton (S6 ), for knitting & processing because of the high whiteness of the cotton.

We are in true sense a unit having a integrated setup from farm to fashion. Wherein we have a setup of ginning, spinning, knitting, processing, finishing and garmenting along with garment printing.

Our spinning industry consists of most modern machines with high end testing equipments followed by an ultra modern and state of the art technology for our knitting, printing and finishing unit including all testing equipments.

# VISION

Sky Primwear is committed  
to accomplish

**FARM to FASHION**

to create a Unique  
Fashion Environment

# MISSION

To produce high quality garments  
by empowering women employment,  
creating self employment for the  
women in allied industry.

To serve global fashion market with  
most carefully selected cotton, high  
quality yarn, fabric processed with  
environmental care.

We strive to deliver our garments at  
shortest lead time with optimum  
usage of sources.

# APPAREL PRODUCTS & CATEGORY

Men's Wear

Women's Wear

Juniors

Athleisure

# OUR SPINNING UNIT

## FEATURES:

Production Capacity 40 MT per day

We produce 100% Combed Compact with PP Cleared Yarns only

We Utilise only Sankar-6 Cotton from our Farms

Total Spindles 54000

100 % Suessen Compact machines

Fully Equipped Quality Control Laboratory with Uster 6 and Uster AFIS PRO

# KNIT & PROCESS

## PRODUCTION CAPACITY

Knitting : 20 Tons Per Day

Dyeing : 20 Tons Per Day

Printing : 06 Tons Per Day

Brushing & Sueding : 05 Tons Per Day Each

## AUTOMATION

Complete Automation For Not Only Dyes, Dissolving & Dispensing But Weighing Also, Automation For Chemicals, Salt & Soda Dispensing By Colour service

Fully Automated Lab & Colour Computer With Integrated Dyeing Machines For Best Results

Supervisory Control System From SEDO

# TYPE OF FABRIC

Single Jersey ( With Spandex)

Terry

Fleece ( 2thread & 3 thread –with Sueding option )  
with and without plaiting

Pique ( With collars and cuffs- standard as well  
as jacquard)

Waffle & Mini-Waffle

Rib & Interlock Fabrics

# DYEING PROCESS

Soft flow Dyeing Machines

Bulk Capacities – Make Brazzoli

750 Kgs, 500 Kgs, 250 Kgs, 100 Kgs

Sample Capacities – Make Brazzoli

50 Kgs, 25 Kgs, 10 Kgs

Continuous Machines – Make Erbatech Germany

CBR – 20 MT/Day

CPB – 15 MT/Day

CWR – 20 MT/Day

Raising and Sueding Machine	: Mario Crosta, Italy
Printing Machine	: Zimmer, Austria

# AUTOMATION

## LECTRA AUTOMATIC CUTTING FEATURES:

- Using Laser to increase the Accuracy
- Consistent Quality
- Optimize Fabric usage & Consumption
- High Cutting Quality & Performance
- Increased level of Automation

## SPREADER MACHINE FEATURES:

- Automated Spreading
- Tension free Spreads of Flat
- Automatic Edge Alignment
- Spreading Length Memory
- Optimizing Material Utilization

## SEWING SECTION FEATURES:

- We Utilize Latest Modern Machines
- Better Seam Quality
- Prevents from being stained with Oil

# AUTOMATION

## EMBROIDERY FEATURES:

BARUDAN 9 color 20 Head Machine  
Fast & Reliable High Speed Embroidery  
Ensures Better Tensioning & Faster Threading  
Backed by the Most Advanced Technology

## PRINTING FEATURES:

MHM Oval 16 Head Machine  
Delivers smooth & Consistent Print Strokes for  
Superior Print Quality  
Speed & Accuracy  
Utilizing High Quality Dyes

# CERTIFICATES & ACCREDITATIONS
